

FOR IMMEDIATE RELEASE

Kemtah Awarded IT Consulting Contract by DOE National Lab

August 10, 2009, Albuquerque, NM

The Kemtah Group, a leading provider of IT Transformation services, announced today that it has been awarded a consulting services contract by a DOE National Lab. Professional consulting services provided under this contract will assist this Lab in transforming their current computing environment into a centrally managed, modern, and secure work environment. Kemtah's areas of responsibility under this contract are extensive. Under the leadership of Kemtah's Project Manager, the Kemtah team will expand the capabilities of the Lab's Service Desk team, as well as provide consultants to assist the Lab with MS Exchange administration, SCCM/SMS administration, computer security, data analysis, database development, and network engineering. The Kemtah team will work with the Lab IT staff to ensure the new environment meets best practices, such as ITIL and PMI.

"Kemtah is thrilled to have been selected to partner with this client to deliver this very important array of IT services. And we are equally proud to add yet another DOE facility to our client portfolio," said Stephen V. Wade, Kemtah's President.

Kemtah has been providing best practices consulting services, IT project management, IT assessment services, managed IT help / service desk operations and deskside support, data center support services, data analysis, database development, network engineering, and IT project services for more than 10 years. Under this new contract, Kemtah will be assisting this Lab with improving the management of its IT systems and strengthening its cyber security programs.

About Kemtah

Headquartered in Albuquerque, New Mexico, the Kemtah Group is a premier IT Infrastructure Support and Transformation Services firm delivering IT Service Management and technology support throughout North America. Our experts help commercial and government organizations effectively optimize the people, processes, and technologies that comprise their IT departments using global standards such as ITIL, CoBIT, and ISO. Kemtah's managed service engagements have on average achieved cost reductions of 30% - 40% while simultaneously increasing productivity by 25% - 30%. We achieve these savings year-over-year through the introduction of efficient technology, aligning spending, and reengineering business processes. The company's footprint of service locations throughout the U.S., Canada, and Latin America enable the Kemtah Group to provide local, reliable, and cost-effective IT support. More information about the Kemtah Group can be found on the web at <http://www.kemtah.com>.
